Dear Mayor and Council

Please receive this as my letter for support for the new Harmony House which is scheduled to be built beside Trinity United Church, the site is donated by the church.

This is a marvellous organization which nurtures and protects the mothers and babies - into developing healthy babies. It's specifically important for women who suffer from addiction to have a safe home to live in and care for their baby.

This new home will also alleviate the overcrowding, homelessness that we now have now downtown in P.G.. Please consider this venue for the new Harmony House, I think that it would be a great location for these mothers and babies.

Thank You
