

The energy to think differently

Matt Mason
Community and Indigenous Relations Manager
FortisBC

About FortisBC

FortisBC area of operations

BC policy context

What is 30BY30?

It is our target to reduce our customers' GHG emissions by **30%** overall by the year **2030**

Four pillars of our Clean Growth Pathway

Energy efficiency

Renewable
Natural Gas

Global LNG

Zero and
low carbon
transportation

Energy Pathways Report

Electrification and Diversified Pathways will achieve the same GHG emission reductions by 2050

Renewable gas will comprise majority by 2050

Both systems are key to meet peak demand
