Hello city council. As a resident who resides on Vista Didge drive for the last 23 years I am against this proposal for now. Some of my concerns are traffic as St Lawrence and Southridge have become very busy over recent years. St Lawrence between Vista Ridge and Southridge has really deteriorated and as many of the streets in town are in embarrassing condition. The light at the bottom of St Lawrence has helped somewhat. Southridge elementary is already over capacity. Until these two issues are resolved I do not support these changes. Tim Archer
