

## 5 Things the City of Prince George can do **INSTEAD** of the Safe Street Bylaws

August 30, 2021

1. **CONTINUE to push for Housing First.** Mobilize the citizens of Prince George to advocate to Provincial and Federal Authorities (i.e. BC Housing, Northern Health) for a safer, cleaner and more inclusive PG.
2. Engage in a **CONSULTATIVE process** that includes people for whom the bylaw will have greatest impact: those without living rooms.
3. Create, promote and **use a THEORY OF CHANGE** for how Prince George will become a safer, clearer and more inclusive PG. This will require a collaborative process across diverse stakeholders. We can help!
4. **Educate the public** on the systemic and structural conditions that create and maintain homelessness. Complaint-based policing leads to greater chaos: it creates greater conflict and drives criminal behavior.
5. Divert funding towards psycho-social and community-based programming.

***Together We Stand*** for a Safe, Clean, and Inclusive Prince George

**FOR ALL!**
